

**Organize ALL  
your Frequent Buyer Cards  
into one easy-to-use application  
for as little as \$ 1.00 per day!**

"The old card system worked fine with just one vendor but with the addition of a few more vendors, it became quite burdensome and unorganized, both for us and the customer. Misfiled cards, missing cards and customers expecting us to know what they bought last time, then came the envelope and upc clipping system. We had to make a change.

I'd heard a bit about ZOOZ and made a few inquiries. Everyone said they liked it. We have not been dissappointed. Our staff finds it simple and the customers like the efficiency too! Shane (of ZOOZ Solutions) was very helpful as well."

**Smithers Feed Store**

"The program is great! It has seriously cut down on labor time. Also, customers use the program to ask what foods they buy. Shane's tech support is also exceptional."

-Jonathan Campbell  
**Pet Solutions**

"We were one of the first stores to implement the ZOOZ Frequent Buyer Program, and put it in all 3 locations. It is so much easier than going through 18 boxes of cards, when a customer doesn't remember what he or she has bought before. And the CFIA is impressed with the way the livestock feed can be tracked as well. We are very happy with this program, and would encourage any store owner to get it going in their store."
